

Momindum K-base 2.0

Momindum K-base 2.0 is meant for whom?

Momindum offers a Rich Media platform to companies and educational institutions for broadcasting and capitalizing their courses, training contents, conferences or meetings online.

Product overview:

Momindum K-base 2.0 is a collaborative platform for capitalization of Rich Media presentations. It centralizes the training content and facilitates its access. Momindum K-base 2.0 allows you to put presentations, lectures or training modules online.

Benefits of Momindum K-base 2.0:

- Create a knowledge bank available to everyone and Offer direct access to relevant information.
- Reinforce interactivity and knowledge sharing between teachers and learners with our collaborative tools.
- Equip yourself with cutting edge technology.
- Improve the efficiency and the result of the learners/employees.
- Search information and communicate easily and efficiently.

General features:

A. Home Page :

The screenshot shows the Momindum K-base 2.0 Home Page. At the top, there is a search bar with the text 'Rechercher' and a 'Google' logo. Below the search bar are navigation tabs for 'THÉMATIQUES', 'CONFÉRCES', and 'DOCUMENTS'. The main content area is divided into several sections:

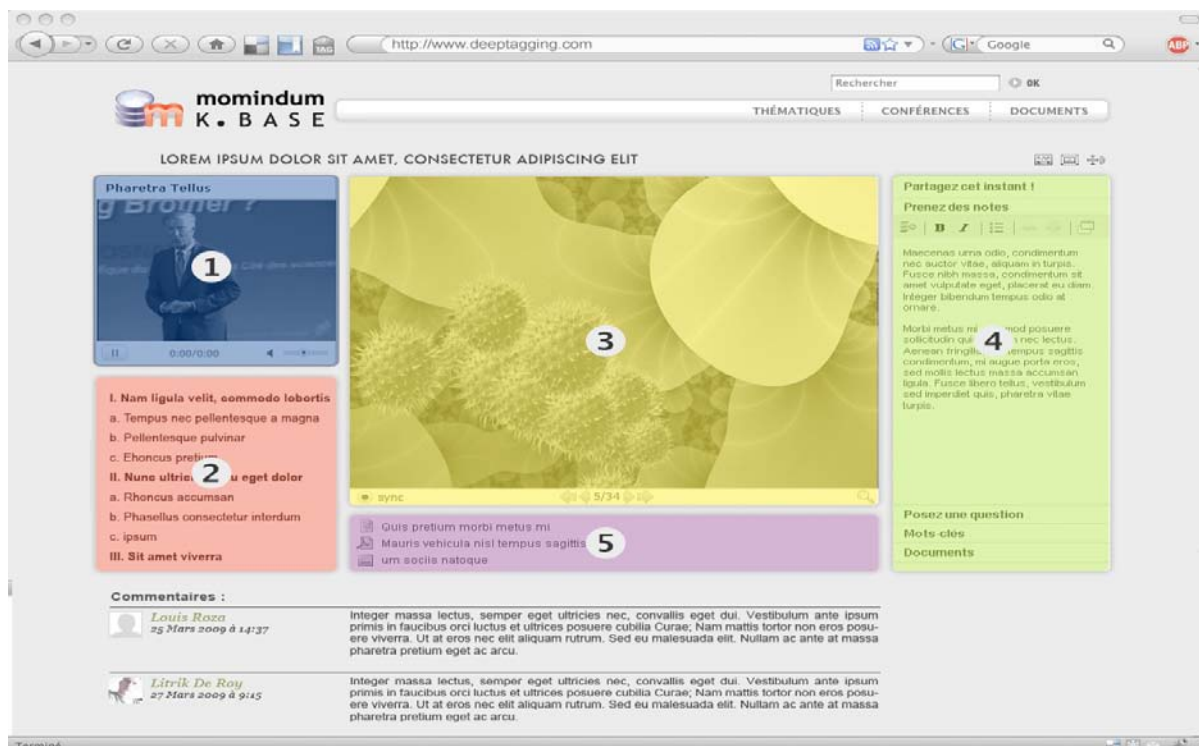

- Featured Article:** A large image of a virus is accompanied by the text 'EPIDEMIC L'expo "contagieuse"'. Below the image is a block of Lorem Ipsum text and a 'Plus >>' link.
- THÈMES:** A list of themes including 'Suspendisse', 'Dictum', 'Igula', 'Vel nunc blandit', 'Quis pretium', 'Mauris vehicula', 'um sociis natoque', and 'penatibus et magnis dis'.
- Video Thumbnails:** A vertical list of four video thumbnails, each with a title 'Aliquam sit amet tortor' and a duration (e.g., 06mn23, 01mn40, 10mn33, 07mn18).
- Text Block:** A block of Lorem Ipsum text at the bottom left.
- Text Block:** A block of Lorem Ipsum text at the bottom right.

- Latest presentations are highlighted.
- The presentations recently put online appear on the right hand side.
- A 'news' section is customizable through the back end.
- Browse through the platform by 'theme', 'conferences' and 'documents'.

The home page of the Open Source platform K-base 2.0 is completely customizable. New features can also be added to the platform. The home page is a small window of the vast number of features available on the K-base.

B. Presentation viewer :

The presentation viewer of K-base contains 5 parts synchronized with each other.

- 1. Player :
 - Player zone in FLV or WMV format.
 - Cursor helps you move around on the screen and point to any part of the video.
 - The duration of video, current time and name of the presenter is displayed.
- 2. Advanced chapter outline :
 - Chapter Outline with many level of hierarchies (4 levels).
 - Scroll the chapter outline up or down.

- Click on any title to watch directly the intended part of the video. All the parts of the presentation move at the same time (video, display documents and annex documents...). All the parts are synchronized.
- 3. Central Zone :
 - Display of 'display documents' is synchronized. (PPT, flash, webpage, PDF...)
 - Browse through the presentation by slides, all parts of the presentation are attached by time code.
 - Activate/deactivate synchronization between the slides and other parts of the presentation.
 - Zoom on the slides in use. (slides open in 960*720 in a new window or tab). Automatic pausing of the presentation.
- 4. Collaborative features :
 - 'Share the instant': Share the URL of an exact part of the presentation. The URL can be shared and used as reference in another presentation. (while indexing as 'annex document')
 - 'Take notes': Users can take notes online and synchronize it with the outline and the presentation if they have an account on the website. Users can also edit, print, share and delete the notes.
 - 'Ask a question': This feature allows the users logged through the user account to send a question to the instructor. They can also link their questions to the time code of the presentation.
 - 'From the same author': Access directly to other presentations made by the same author.
 - 'Keywords' and 'Documents': Browse through presentations by keywords and annex documents. When you click on any part of a presentation, all different parts linked by timecode open up automatically. All parts of the presentations are synchronized.
- 5. Additional Documents :
 - Display of annex documents synchronized with the presentation. The documents appear as per their timecodes, at the exact moment where the lecture is relevant. Clicking on any part of the presentation will open it in a new window (or a new tab), while the presentation is automatically paused.
 - Users can also make comments on the presentations to share their ideas with other users. The space below each presentation is a forum for discussion on the presentation being currently viewed. The comment forum can be moderated, activated/ deactivated through the back office.

C. General Template:

D. Web TV Template :

Templates	General	Web TV
Video	<i>Top left corner</i>	<i>In the middle</i>
